Varied Fluency Step 7: Temperature

National Curriculum Objectives:

Mathematics Year 2: (2M2) <u>Choose and use appropriate standard units to estimate and</u> measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels

Differentiation:

Developing Questions to support reading temperature using thermometers. Scales in increments of 1 or 10. Most increments marked and all temperatures fall directly on the marked increments.

Expected Questions to support reading temperature using thermometers. Scales in increments of 2, 5 or 10. Most increments marked and some temperatures fall between marked increments.

Greater Depth Questions to support reading temperature using thermometers. Scales in increments of 2, 5 or 10. Some increments marked and most temperatures fall between marked increments.
